

WHAT IS MY PINOY COIN?

Pinoy Coin is a cryptocurrency for The Philippines and the Filipino people, our mission is to create a cryptocurrency that allows the Filipino people to take control of their financial future and access the amazing growth of the crypto market, by ultimately delivering a usable cryptocurrency for the Filipino.

WHY CRYPTOCURRENCY

In 2009, the very revolution we are witnessing now was launched on the initiative of Satoshi Nakamoto. He ushered us into the era of immeasurable possibilities with regards to our financial freedom, at least that was the whole purpose of bitcoin.

Now it turns out that the blockchain architecture he designed not only allows us to achieve this goal in the form of asset storage through decentralized solutions, independent of government institutions and large corporations, but it also allows us as a community of like-minded people to take control of our very own currency and our collective financial futures.

WHY THE PINOY COIN?

The Philippines is a unique social economic and political environment with over 100 million Filipinos. We are positioned perfectly to take full advantage of this crypto revolution.

We already have millions of our countrymen and women investing and gaining the rewards of cryptocurrency investments. Pinoy Coin is here to allow everyone no matter their financial position invest in The People's Coin. Together we can grow together we can earn!

When we invest in our own cryptocurrency we not only access these rewards, we can also collectively drive the value of our investment and everyone who owns We have created The Pinoy Coin to reward all Holders after each transaction with a dividend payment based on how much you own. We all share in the growth and profits. Truly the people's coin.

We can create a cryptocurrency that not only grows in value but also is a fantastic way to send money between family and friends as with each share we increase the value of our currency.

Eventually we can create a real usable digital currency that is not only an investment for us our countrymen and women but also eventually a genuine alternative currency for the people of the Philippines. Taking control of our currency, not leaving it in the hands of governments and corporations.

INVEST IN OUR COLLECTIVE FUTURES. INVEST IN THE PEOPLE'S COIN.

- The Philippines has the third-highest rate of crypto use across the world.
- The Philippines is one of the world's fastest adopters of cryptocurrency, new reports show.
- According to data, the pandemic has fuelled the trend, with Filipinos realizing the value of crypto as an investment and income-generating currency.
- Binance's Changpeng Zhao describes the Philippines as "one of the most active crypto communities in Asia".
- In terms of day-to-day use and enthusiasm, a significant proportion of Filipinos appear to be leapfrogging directly from a cash-based economy to the future of fintech.
- Remittances are among the domestic economy's growth drivers for decades now as it accounts for nearly 10 percent of gross domestic product (GDP).

INVESTMENTS

Digital currencies are a highly attractive alternative to traditional investments but not without risk, which can, however, be limited by the application of basic safety rules, proper management of your capital, and a proper long-term mindset.

All investors are encouraged to carefully consider the concepts presented below. We believe that the foundation for building a well-connected community and communication at the highest possible level, along with transparency and a deep understanding of the fundamentals that have guided the introduction of The Pinoy Coin.

Pinoy coin is a social cryptocurrency token on Binance blockchain with a total supply of 10 billion coins at launch. This social token also rewards holders through a transaction tax. Holders earn more tokens just by holding tokens. The token is a digital asset, bearing value set on its underlying assets, on the well-established Binance infrastructure, benefiting from several advantages:

- Security and predictability (as opposed to, for example, having to run an independent blockchain network).
- ✓ High liquidity (interchangeable with other Binancebased) easier listing on exchanges with infrastructure already in place.
- For each transaction (buy/sell/transfer), a fee of 2% will be charged.
 - 1% of the token will be distributed to the holders of Pinoy Coin / passive income for just holding coin.
 - 1% sent to charity and marketing wallet. As a social currency from the people of the Philippines, we will share our growth with the people in need.

TOKENOMICS

Tokenomics is extremely important and we are convinced that with the help of our Pinoy Coin community and we assure all investors that the Pinoy Coin team will always act ethically, and our goal is to manage and continue the growth of this Coin to become equal in value with The Philippine Peso and then see it become a legitimate and widely accepted and used currency, which will bring tangible benefits to any person with Pinoy Coin.

Name:

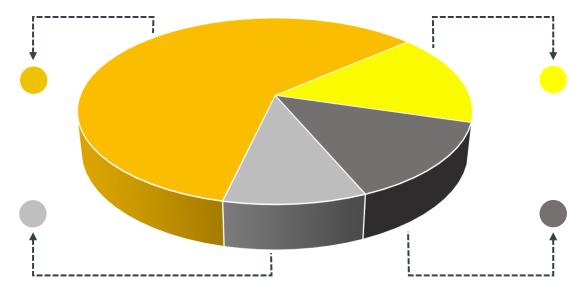

PINOY COIN

Token Symbol:

MYPC
